LIVE UNITED

United Way of Central and Northeastern Connecticut

Why give directly to United Way *Community Investment*?

United Way *Community Investment* focuses on the core issues that improve lives and change community conditions for people in the 40-towns of central and northeastern Connecticut.

We look at the big picture. A good education is essential to getting a good job. An income that can cover today's needs and save for tomorrow solidifies a family's foundation. Good health helps children succeed at school and enables adults to be productive at work. **It's all CONNECTED.**

No one organization can do it alone. That's why giving to United Way *Community Investment* is the best way to build a stronger community for all of us. We measure results and outcomes, and holistically help connect children and families with opportunities for a better life.

It is through connecting people and passions that we're able to make our region an even better place to live, work and raise a family.
